

Finding quarters teaching slides

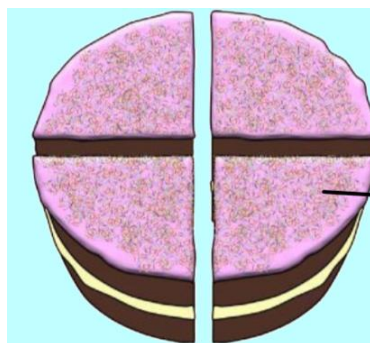

Let's learn some new maths language!

quarter $\frac{1}{4}$

(share equally, shape, object, amount, part, equal parts, whole, one whole, one half, two halves, one quarter, two quarters)

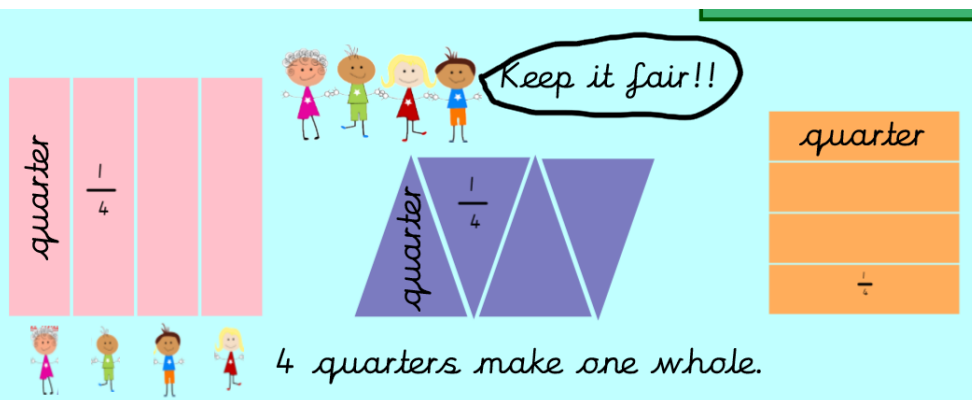

This is a quarter.

There are 4 equal parts called quarters.

They each get 1 quarter.

4 quarters make 1 whole

4 quarters make one whole.

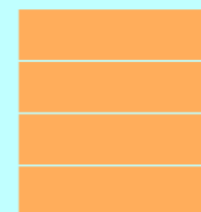

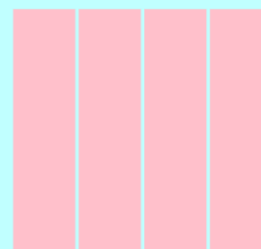

$\frac{2}{4}$

Keep it fair!!

$\frac{3}{4}$

$\frac{1}{4}$

Can you show these fractions?
