## Bar Charts

Bar charts use a bar on a scale to represent data.

What is the total number of children surveyed?

What is the difference in the number of children who chose the ready salted and salt and vinegar?

How many fewer children chose red as their favourite colour as compared with those who chose blue and green?

Three more children are surveyed and they choose blue as their favourite colour. Which colour is the most popular now?

| Mode of <br> transport | Number of <br> children |
| :---: | :---: |
| Walk | 15 |
| Car | 8 |
| Bus | 5 |
| Bicycle | 4 |

Which scale would you choose?

## Some children

 researched how a class of children had travelled to school. Use the data in this table to create a scale bar chart or pictogram.The scaled pictogram uses one picture or symbol to represent two or more values.

How many fewer children chose red as their favourite colour as compared with those who chose blue and green?

Three more children are surveyed and they choose blue as their favourite colour. Which colour is the most popular now?
