

I am learning to solve measurement word problems
(adding)

Question	Calculation
A green pencil measures 15 fingers long and a blue pencil measures 10 fingers long. How long are both pencils altogether?	
A washing up bowl holds 9 bottles of water and a sink holds 15 bottles of water. How many bottles of water would be needed to fill the washing up bowl and the sink?	
A front garden measures 23 feet long and a back garden measures 12 feet long. How long are the gardens altogether?	
A silver box measures 10 fingers long and a gold box measures 12 fingers long. How long are both boxes altogether?	

Can you write your own word problem for length where you need to add?
