I am learning to identify and use homophones

Homophones are words that sound the same but are spelt differently.

They come from the Greek words *homo* (same) and *phon* (sound).

For Example:

- What are you going to **wear** to my birthday party?
- Why, **where** are we going?

How many homophones can you find and correct in this passage?

I maid my weigh down the rode. Suddenly, eye sore a wight hoarse.

"Wear are ewe off two?" eye asked.

"Too sea the see and watch the son go down."

"Isle come with you." I said.

I court him and wee road together, wile the wind blue in our hare.

Can you list 10 homophone pairs and explain the different meanings.
