

## Focus Question

Look at these.  
Which is correct?  
How do you know?

$$16 = 10 \text{ and } 7$$

$$16 = 10 \text{ and } 6$$

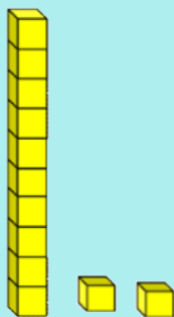

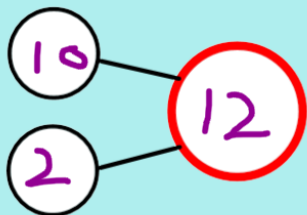

$$16 = 10 \text{ and } 8$$

Let's learn some new maths language!

partition

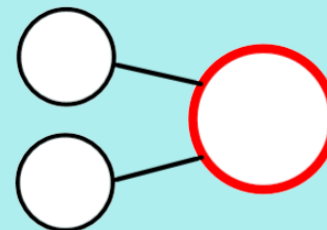

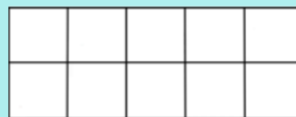

I am learning to partition numbers

$$12 = \underline{1} \text{ ten and } \underline{2} \text{ ones}$$

$$12 = \underline{10} \text{ and } \underline{2}$$

I am learning to partition numbers

$$14 = \underline{\quad} \text{ ten and } \underline{\quad} \text{ ones}$$

$$14 = \underline{\quad} \text{ and } \underline{\quad}$$
