

Friday 3rd July 2020

Today for a bit of fun on Friday we would like you to attempt these Mathematical Magic card tricks.

First I'll read your mind...

- Think of a number
- Double it
- Add 6
- Halve it
- Subtract the first number you thought of

THE ANSWER YOU HAVE IS 3

Try this with any number - the answer will always be 3

Impress your family with this.

You will need a deck of playing cards - if you do not have one you can print one here - Print on black and white and then colour them https://www.printableboardgames.net/preview/Playing_Card_Deck

- Watch the videos
- Learn the trick
- Impress your family
- Maybe film the trick
