

I am learning to solve division problems by grouping.

Focus Question

There are 8 rabbits. Each rabbit hutch fits 2 rabbits. How many hutches do we need?

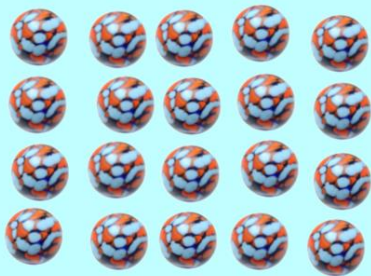

Let's learn some new maths language!

grouping

(sharing equally, equal groups, equally, divide, divided by, divided into)

I am learning to solve division problems by grouping.

I want to group these marbles into 10s.
How many groups will I have?

$$20 \div 10 =$$

We are grouping equally.

I am learning to solve division problems by grouping.

I want to give stickers out in 2s.

How many people will get a sticker?

$$12 \div 2 =$$
