|  | Week 1 | Week 2 | Week 3 | Week 4 | Week 5 | Week 6 | Week 7 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| AUTUMN term 1 | Home visits | To count reliably (from 0-20) NPV To count objects to 10 , and beginning to count beyond 10 (Can count in a line) NPV | To use one to one correspondence (touch each object and give it a number 0-20) NPV <br> Uses positional language (below, above, next to, beside, in front, behind and on top) GP | To count actions or objects which cannot be moved. NPV | To count objects in a group/ irregular arrangement of up to ten objects (same group/different group). NPV | To represent numbers using fingers, marks on paper or pictures. NPV <br> To recognise numerals. (o to 5 , 0-10 \& 0-20) NPV | To order numbers to 20. NPV |
| AUTUMN term 2 | To write numbers to 20. NPV | To find/ say the number which is one more or one less than a given number. A \& S <br> Describes their relative position such as 'behind' or 'next to'. | Relates addition to combining two groups. A | Relates subtraction to taking away. S | To find one more or one less from a group of up to five objects, then ten objects. A \& S | Selects the correct numeral to represent 1 to 5, then 1 to 10 objects. <br> To set out groups and find the total amount. Mx | Uses <br> mathematical terms to describe 2d shapes. GS |
| SPRING term 1 | To estimate how many objects they can see and check by counting. NPV <br> They recognise, create and describe patterns. <br> To count patterns. Mx | To recognise the number of objects in a small group without counting out (subitise). NPV <br> Orders two or three items by length or height. M | Uses quantities and objects, to add two single-digit numbers and count on to find the answer. $\boldsymbol{A}$ | To count on when adding to a group (holding first number in head) $\boldsymbol{A}$ | To add two sets of objects which are the same (cars + cars) then different (apples + bananas) <br> A <br> Orders two items by mass. (using everyday language) | Uses everyday language to solve problems. M <br> Increase one quantity by a given amount to find the total (augmentation) A |  |

|  |  |  |  |  | M |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| SPRING term 2 | To use <br> quantities and objects, to <br> subtract two single-digit numbers (count on or back) to find the answer. S <br> To count backwards.(on a number line or counting stick.) S | To recognise and name + , =, signs. A \& S <br> To read an addition number sentence. A <br> To solve an addition number sentence. A | To recognise and name + , =, signs. A \& S <br> To read a subtraction sentence. S <br> To solve a subtraction number sentence. S | To share objects equally. D <br> To group objects. D | Orders two items by capacity. (using everyday language) M <br> Uses everyday language to compare quantities \& objects. M <br> Uses everyday language to talk about distance. M | Orders and sequences familiar events. M <br> Uses everyday language related to time (begins to identify o'clock) M |  |
| SUMMER term 1 | To skip count in 2s, 5 s \& 10 s . <br> Mx <br> To make 5 and 10 (feel the tenness of ten). <br> NPV | To skip count in $2 \mathrm{~s}, 5 \mathrm{~s}$ \& 10 s . <br> Mx <br> To arrange an addition number sentence. A\&S <br> To arrange a subtraction number sentence. S | To skip count in 2s, 5 s \& 10 s . <br> Mx <br> To halve (an even group up to 12) $\boldsymbol{S} \& \boldsymbol{D}$ <br> To solve problems involving grouping and sharing. F | To skip count in 2s, 5 s \& 10 s . <br> Mx <br> To share an even group of objects between 2, between 4. D \& $F$ | To skip count in $2 \mathrm{~s}, 5 \mathrm{~s}$ \& 10 s . <br> Mx <br> Begin to understand odd and even. <br> Mx \& D <br> To count up to 20 (objects) images in an array) D | To skip count in 2s, 5 s \& 10 s . Mx <br> Uses everyday language to talk about money. M <br> Demonstrates understanding that $£ 1$ has greater value than pennies. M |  |
| SUMMER term 2 | Shares an even group of objects between 4. D | To know number families to 5, 6 \& 10. A \& S | To know doubles to 10 . <br> A <br> Begin to relate the addition of dobles to counting on | To identify half a group of objects. F | Know and name different coins-1p, 2p, 5p. 10p, 20p, 50p, £1 \& \$2. <br> M <br> Can use 1p, 2p, | To identify half <br> a shape. $F$ <br> To put together halves to make whole shapes. F To break an object in half. $F$ | Uses <br> mathematical <br> terms to describe 3d shapes. GS |
