## Remote Learning 14<sup>th</sup>-18<sup>th</sup> December

Dear Parents and Carers,

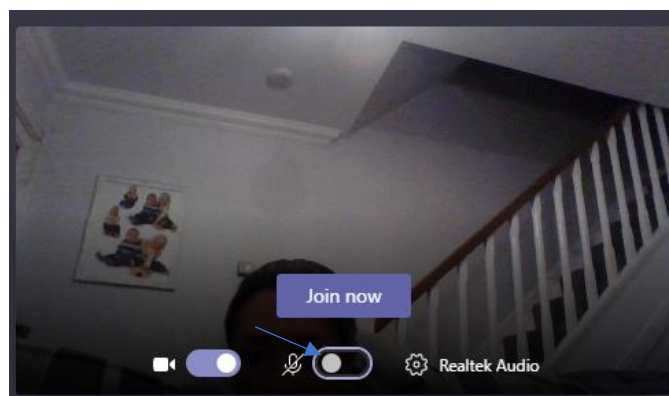

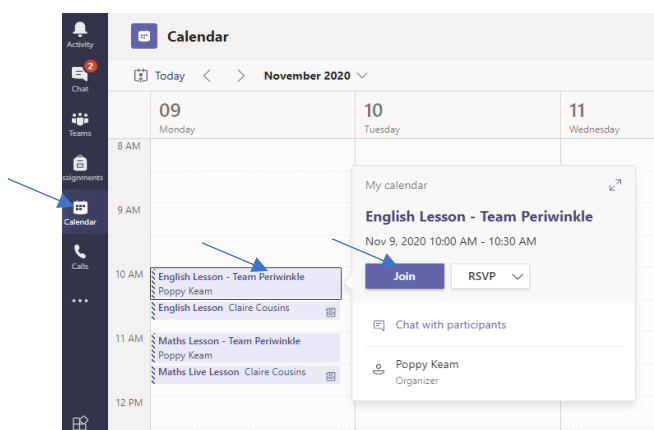

Remote learning between 14<sup>th</sup> and 17<sup>th</sup> December will be delivered via the Teams portal. Please note there will be no remote learning on Friday 18<sup>th</sup> December, as school is now shut on this day.

Children will have English, Maths and Topic live teaching input with set activities to complete afterwards.

We have created a daily timetable for these live sessions, which we will send out to all parents. We have tried to ensure that sibling live sessions happen at different times of the day but please contact us if this is going to pose a problem and we will try to solve it! All of the sessions are recorded and posted on Teams, so they can be watched at alternative times.

Below are steps outlining how to access your child's learning:

- Log on to your child's Microsoft Office 365 account. Their user name and password can be found on your MCAS app. For a guide to how to find your login details please see the end of this letter. If you cannot find your child's log in details please e mail Mrs Cheshire or Mr Lamprell.
- Click on Microsoft Teams.
- In order to watch a live lesson, click on the **calendar tab** on the left hand side of Teams. Here you will see the scheduled live sessions. Click on the **one about to take place** and hit **'Join'**. Please ensure you **microphone is switched off**, otherwise the background noise can be distracting.

- If you are not able to watch live and want to watch a lesson that has previously taken place, you need to log in to Teams, click on the button that says **Teams** on the left hand side, click on your child's class and click on the **'posts'** button.

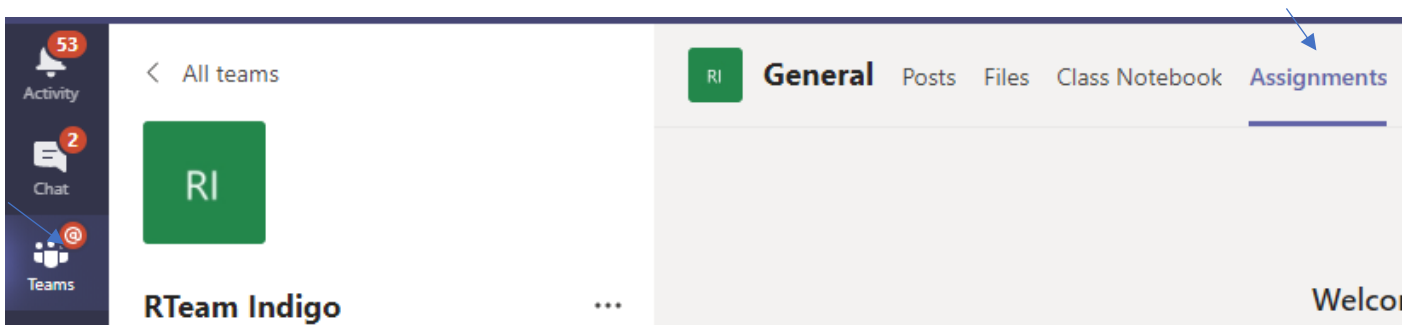

All recorded lessons will be listed here. A previously recorded lesson will look like this:

Simply click on the stream button, to watch the recorded lesson.

- The tasks to be completed can also be found under the 'posts' tab. Simply click on the button that says 'view assignment'.

The children's task will come up on the screen. For some tasks the pupils will be able to complete the task directly onto the computer, as they complete the task it saves automatically. For others, you may wish to print the task off to complete by hand.
