

How to take a quiz on a book using Accelerated Reading.

After reading a book (scanned or un-scanned) you will need to take a 'quiz'. This must happen within **24hours** of finishing the book as the tests are not memory based but linked to comprehension understanding.

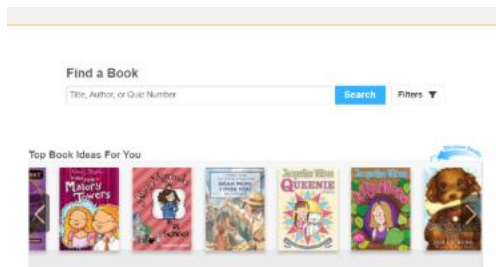

1. Click here to access [Accelerated Reader Quiz](#). You can also access our AR website on our Chilton Primary School website homepage.

2. Children must click on '*I am a student*'. Children must use their own username which is Firstname.Lastname. The password all children is Viking26.

3. Click on the Accelerated Reading tab.

4. The children can either search for the book OR type the quiz number (located on the front of the book).
5. Tests usually take no longer than 10 minutes.
6. At the end of the test, the children will be recommended additional books to read.
7. The results from the quizzes and other assessments that we will complete in school give us a great deal of information that we can use to inform our teaching and learning.
